GIRL.

(intro)

ohhhhhhh girl i'm gonna miss you
girl your gonna be at the end of
my world but i'll keep living i'll
keep breathing the air
wonderin if your happy way out there
i remember the day and the night we met
the power's of love where at there best
the more lonely day's and sleepless night's
that i had a reason the look of life
time was so good our time was so fine
that i got the habbit of calling you mine
but life is so strange that i know in my mind
in a little while you'll be saying good-bye

(chorus)

girl i'm gonna miss you girl
your gonna be at the end of my
world but i'll keep living i'll
keep breathing the air wondering
if your happy way out there

(second verse)

then one day in early spring
took so long to say i bought you
that ring things got bad we had a
fight now everything is wrong and
nothing is right but i guess what
you want is you want to be free
so girl if you get forget about me
i've gotten on a train i have a place to go
but girl there's one thing i want you to know

(repeat chorus twice)

wonerin if your happy way out there.

(fade out)
