"Peterpan Must Die"

Visit "[Peterpan Must Die](#)" on MotoLyrics.com

Do you recall
Do you remember me

According to your memory
You are still in love with him
And that's what is killing me
To know that you are still the same

But your head is up in never never land
You better not ruin our future plans
To fall in love with me again until the end

Do you recall
Do you remember me
When you said we could be more than friends
Do you recall
Do you remember me
When you said we could be everything

You promised me that we could
Fly around the world tonight
You promised everybody here
They'd live a happy life
Tonight tonight the time is right
For taking flight to save the world
But you lied but you lied
About it
