"Until Forever"

Visit "[Until Forever](#)" on MotoLyrics.com

This is your heart beat so
Never had the power just to let him go
You miss him girl, and you need him.

So give me now just one more chance with you
And I know we can make this work again
All the distance that we have
Will make us grow stronger I know
If we try, we can do it again.

A mile away from everything we need
To believe we can make this work
And I think that we'll make this work
So stop pretending life will get
The best of you and me
If we try again we'll see

This is your heart beat so
You'll never let him go

He said he'd call late afternoon
You said you'd wait in for him to
Then maybe when he calls you'll make it up again
But he knows you, he knows
You'll listen if he calls you up
He calls.

This is your heart beat so
You'll never let him go
This is your heart beat so
You'll never let it go
