we used to drive to phoenix in the summers  
to see your sister & mom & go swimming in the pool  
we'd take the 15 to the 40 over to route 66  
before we dropped out of school

now you work at a candy store  
& we don't talk so much anymore  
but i still wonder sometimes  
if you've still got that same ride  
with the dents on the driver's side

we used to drive to phoenix in the summers  
to see your sister & mom & go swimming in the pool  
you were 21 & i was almost 20  
the year we dropped out of school
