you can't deny that cut flowers given time will surely  
die  
but they'll do fine with candles and some wine but it's a  
crime  
yeah it's a crime that you're kissing on that girl for all to  
see  
and it's a crime that she's going home with you and not  
with me

it's plain to see that boxes of candy will make her sigh  
but confidentially they'll just rot her pretty teeth & it's a  
crime  
yeah it's a crime that you're kissing on that girl for all to  
see  
and it's a crime that she's going home with you and not  
with me

it has been proved that pups and kittens too will make  
her swoon  
but it stands to reason that animals give fleas and it's a  
crime  
yeah it's a crime that you're kissing on that girl for all to  
see  
and it's a crime that she's going home with you & not  
with me
