

Casiotone for the Painfully Alone

"Secretest Crush"

Visit "[Secretest Crush](#)" on MotoLyrics.com

the secretest crush there ever was
is in my heart
and there's no one i can tell
cause everyone around here
has a big fat mouth
including me
and that's the hardest part
cause i really wanna tell you
as you brushed my arm last night
and how i felt my heart stop
but i don't trust you not to tell
but i guess it's just as well
well i guess it's just as well

the secretest crush there ever was
and there's no one i can tell
and i can't even
write a song about her
cause she loves my band
yeah she loves my band
