Gotta gotta gotta getcha mind right
Gotta gotta gotta keep your game tight
Gotta get undressed whicha all right
We the best and we'll fuck with you all night
Gotta gotta gotta getcha mind right
Gotta gotta gotta keep your game tight
Gotta get undressed whicha all right
We the best and we'll fuck with you all night

All I wanna do and I just wanna be
I got a few tricks hidden under my sleeve
I got a few beats you gotta hear 'em to believe
I might as well use 'em and go on a rapping spree
Once upon a time, puttin' on for the club
Shit's done changed man all they want is dub
Gotta get 'em goin, gotta make 'em cut a rug

All we get is love

Listen
I ain't in the business of bitchin'
Or flauntin'
'bout all types of women
I get with
Non-existent
All I wanna do is let you listen
We pumpin' out hits like a well-oiled piston
To getcha ass movin is our only mission
Some of these "rich" rappers wanna talk about
mansions and Lambo's
Half of them don't even have though
Just rented out for a music video
(but I'm running out of skips on my free internet radio,
man!)

I get it that's the image and I got nothing against it
Cuz we over here jammin', what's the point of stackin'
riches?

What's the point of stacking riches?
What's the point of fucking bitches?
Make appointment with the dentist
Cuz my spittin' is the illest

People think that they the realest
But they talkin incoherent
I don't really wanna hear it
But I guess that's not the spirit

I can tell you can feel it
Cuz that's just the way I kill it
And you like the way I hit it
Cuz the way I always split it

Call that shit a banana split
Chalk this up as another hit

All I wanna do
And I just wanna be
I got a little money buried under my tree
I'll show you where I hide it if you wanna come and see
You gotta circumnavigate the globe and sail the seven seas
I got a million ways to get it and I ain't used none
I used up 8 lives and I'm on the last one
I smoked a thousand pounds of purp and now I'm floating to the sun
And when it's all said and done at least I know I had fun

All that you should know is that you fuckin' with the best
New sound of hip-hop, put it to the test
My swagga might be laggin but I'm killin all the rest
Gotcha ass movin like a fuckin two-step
Like a fucking two-step
Roll up to the club and they playing dubstep
Got your booties bouncin, what the fuck did you expect?

Gotta gotta gotta getcha mind right
Gotta gotta gotta keep your game tight
Gotta get undressed whicha all right
We the best and we'll fuck with you all night
Gotta gotta gotta getcha mind right
Gotta gotta gotta keep your game tight
Gotta get undressed whicha all right
We the best and we'll fuck with you all night
