I got these mother fucking beats on standby  
At my disposal, and I use em when the time's right  
But if the price is right  
I might fly in tonight  
Break you off a cut  
for my cut  
then the catch the next flight  
Out  
Out of your city  
Back to Mississippi  
Where the beaches are shitty  
But the girls are kinda pretty  
One day I'll wake up bigger than P Diddy  
And if not, then fuck it, guess I'll settle for Fiddy

I'm telling you  
Making net revenue  
Off my lack of swagger  
And it's nothing new  
Every time we comin through  
See you taking notes  
In the back of the show  
Coppin all my shit  
How low can you go  
Replicate success  
From the best  
Can't be mad atcha  
Put me to the test  
I suggest  
You hedge your bets on us  
And when you look back at this day and time  
That's when you'll know the game was already mine  
(m-m-m-mine)

And people keep telling me  
Sampling is felony  
But I got one last word to say  
I handcraft these beats all night and day  
Like it ain't nothing  
Like a kid can play  
Make that sound pop  
Mix it in with the rock

Slowing climbing up the charts  
Pulling out all the stops  
One day I'll wake up bigger than P Diddy  
And if not, then fuck it, nothing wrong with Fiddy

Full speed ahead  
Can't wind up dead  
I'm the getaway driver  
But I'm trapped in your head  
Some people say you'd be better off dead  
In the interests of self-preservation  
Nothing less can be said

You should hear the shit  
People come up wit  
Coming up to me  
You better fall back for your legs get whipped  
I'll send you home crying  
Got no problem with it  
Gotcha screaming for your mama  
Like ya wanna suck a tit  
We're the sweatshop of hits  
With a name so raunchy  
can't get touched with a 20 foot stick  
And on our grave and tombs  
It'll read died while dropping those booms

When you mess with the best  
then you die like the rest  
Revel in my sound  
Mother fucker this is not a test  
When you mess with the best  
then you die like the rest  
Mother fucker listen to my sounds  
This is not a test
