When in Rome
When does what Romans had don't before
When in France
One worse the raising "ses - Je t'adore"
When in Spain
One taxi (est?s tu) is the pain
When in London at three
One loves want stee
Witch brings me around to you and me

When in love
One just what loves will always do
Stayin' close
And let it nothing both love come true
If in doubt
Remember when you're about to go
When in Rome
Do as the Romans
When in France
Do as the French
When in love
Do as the lovers, dear
Love me lover
And I love you

When in love
When yours what lovers will I (weiss) do
Holding hands
And then discovering some feen you
Through wind saying
Remember just before you complain
When in Rome
Do as the Romans
When in France
Do as the French
When in love
Do as the lovers, dear
Love me lover
And I love you...
