When I lost you I lost myself aswell,  
I can't stand living in this God damn hell,  
Cause I need you, need you here with me,  
And that's not the way it's going to be  
And now I miss you more than words can say,  
I think about you every single lonely day,  
Cause I need you, need you here with me,  
And that's the way it's going to be  
I still need you  
Back where we started,  
Right back where we started,  
The clouds are gone and I can see,  
Now I know I need you here with me  
And now I miss you more than words can say,  
I think about you every single lonely day,  
Cause I need you, need you here with me,  
And that's not the way it's going to be  
Then I see you, I don't know what to say,  
I don't know what it is the words just fade away,  
Cause I need you, need you here with me,  
And that's the way it's going to be  
I still need you  
Back where we started,  
Right back where we started,  
The clouds are gone and I can see,  
Now I know I need you here with me  
Back where we started,  
Right back where we started,  
The clouds are gone and I can see,  
Now I know I need you here with me  
Now I miss you more then words can say,  
I think about you every single lonely day,  
Cause I need you, need you here with me,  
And that's not the way it's going to be  
I still need you here with me,  
I still need you  
Back where we started,  
Right back where we started,  
The clouds are gone and I can see,  
Now I know I need you here with me  
Back where we started,  
Right back where we started,

The clouds are gone and I can see,  
Now I know I need you here with me  
Need you here with me
