Don't look down and don't look back,  
were all running for our lives,  
It's a game that we play  
And were running out of time, I'm out of mind

It's been so long since I've seen your face

The days are short, the nights are long,  
It's getting harder to live life this way,  
Everyday,  
No one to trust were all alone  
Driving faster miles away from home,  
Too far gone

Is it true what they said,  
that your running for your life,  
I thought I knew now I know,  
were all running out of time, I'm out of mine

It's been so long since I've seen your face, your face

The days are short, the nights are long,  
It's getting harder to live life this way,  
Everyday,  
No one to trust were all alone  
Driving faster miles away from home,  
Too far gone

It's been so long since I've seen your face, your face

The days are short, the nights are long,  
It's getting harder to live life this way,  
Everyday,  
No one to trust were all alone  
Driving faster miles away from home,  
Too far gone
