Don't look down and don't look back  
We're all running for our lives  
Its a game that we play  
And we're running out of time, i'm out of mind  
Its been so long since I've seen your face, your face  
These days are shorter, the nights are long  
Its getting harder to live life this way  
Everyday  
No one to trust, we're all alone  
Driving faster miles away from home  
Too far gone  
Is it true what they said  
That your running for your life  
I thought I knew now, I know  
We're all running out of time, i'm out of mine
