### "Supernature"

Once upon a time  
Science opened up the door  
We would feed the hungry fields  
Tilll they could'nt eat no more

But the potion that we made  
Touched the creatures down below  
And they grow up in a way  
That we'd never seen before  
Supernature, supernature, supernature, supernature

They were angry with the man  
Cause changed their way of life  
And they take their sweet revenge  
As they trample throught the night

For hundred miles or more  
You could hear the people cry  
But there is nothing you can do  
Even god is on their side  
God is on, god is on, god is on their side  
Supernature, supernature, supernature, supernature

Cars will break the light  
Come flowing in the air  
The creature will decide  
Who goes where  
How can I explain  
Things are different today  
Darkness all around  
No one makes a sound  
Such a sad affaire  
No one seems to care  
Supernature, supernature, supernature, supernature

Better watch out  
There's no way to stop it now  
You can't escape it's too late  
Look what you've done  
There's no place that you can run  
The monsters made, we must pray

Maybe nature has a plan  
To control the way of man  
He must start from scratch again  
Many battles must he win  
Till he earns his place on earth  
Like the other creatures do  
Will there be a happy end  
Now that all depends on you  
Supernature, supernature, supernature, supernature
