"World Blue"

Visit "[World Blue](#)" on MotoLyrics.com

The world's down with sentiment
Harp strings that I've never heard
Family talk they talk a lot
Talking into telephones
Talking into telephones (Talking into telephones)
Talking into telephones (Talking into telephones)
Talking into telephones (Talking into telephones)
Talking into telephones (Talking into telephones)

I used to have a broken head
Broken words from broken thoughts
Too much blame on sorry self
Talking into telephones
Talking into telephones (Talking into telephones)
Talking into telephones (Talking into telephones)
Talking into telephones (Talking into telephones)
Talk, talk, talk, talk...

I caught the world flu
I saw the world blue
[x4]
