

## Changing Skins "Baby"

Visit "[Baby](#)" on [MotoLyrics.com](http://MotoLyrics.com)

Are you angry at the world,  
Getting tired of shallow people,  
Just passing the night through your bed.

You can't smoke your cigarettes,  
Are you sick of drugs and drinking,  
Of all those clubs and dancing...

Baby!

When there's no one else to call  
And you're sick to spend your days alone  
Walking along the allies of this old town you call home.

Baby just let me know,  
I will come and hold you close  
I'll keep you warm and cheerful as long as you call  
me...

Baby!

When there's no one else to call  
When there's no one else to call  
When there's no one else to call  
You can always call me...

And I'll pick you up every time  
And I'll get you safe to the shore line  
Cause you're roaming the sea of snow  
Where nobody makes it alone...
