We crush your souls  
And we'll take you all far,  
Somewhere your body only crawls.

Come near and smell  
The damage that we have made,  
You're going down to hell.

From the darkness  
A band woke up,  
To rule the music  
To be the killer.

Forever we stand  
Chaos; the best band.  
The kingdom in our hand.

[Instrumental Break - Guitar Solos]

C - Creeping notes we bring  
H - Heavy as Metal  
A - Away from this world  
O - Oh freaks we are
