The golden boy in the crowd  
The world loves him now  
And so do you  
But his mirror shows only himself  
Itâ€™d be easy to tell if you had my view

You might go hungry, might go blind (everything fades)  
If you keep on keeping him in mind (take it away)  
Baby, you canâ€™t keep waiting round  
Love is your own choice to be found  
Something that your body doesnâ€™t know a thing about

Girl youâ€™ve got to woman up  
Girl youâ€™ve got to woman up  
Get your rainbow off the rug  
And start anew  
Girl youâ€™ve got to woman up  
Bite the bullet, not the dust  
Cuz the road to better love  
Is losing you

So bad you feel when you wait  
Your dignityâ€™s down the drain  
It ainâ€™t right if the road only goes one way  
Itâ€™s okay to love hard as long as long as youâ€™re loving you first babe  
Cuz you canâ€™t trust no one else to be your friend these days

You might go hungry, might go blind (everything fades)  
If you let your power go this time (take it away)  
Baby, I hate to see you cry  
But only goodâ€™s in this goodbye  
Step out of the forest and youâ€™ll see the trees behind
