I've been trying, there's do denying,
that girl you've got my heart falling so fast.
My minds racing, you've got me wasting,
My days were endless till I see you pass.

And I'm like,
(Ooo-ooo)
Baby did I catch your eye?
(Ooo-ooo)
Can I see you tonight

When the lights go out,
You know it's going down.
The music playing is all we need.
When we're all alone,
You don't wanna take it slow.
Forget it all and come home with me.

(Come home with me)

Take my hand girl, we'll cross this land till,
We can find a place that we can all our own.
Trust in me and I'll set you free,
babe I'm never ever leave you feeling cold.

You got me like,
(Ooo-ooo)
Tell me I'm the only one
(Ooo-ooo)
And I'll see you tonight

When the lights go out,
You know it's going down.
The music playing is all we need.
When we're all alone,
You don't wanna take it slow.
Forget it all and come home with me.

Come home with me.
Come home with me.
Come home with me,
with me, with me (me x6)

When the lights go out,
You know it's going down.
The music playing is all we need.
When we're all alone,
You don't wanna take it slow.
Forget it all and come home with, home with me.

When the lights go out,
You know it's going down.
The music playing is all we need.
When we're all alone,
You don't wanna take it slow.
Forget it all and come home with me.
