Fuck, here I am now
Trapped in this hypocrisy
Shit we believe that
Shit is all that will ever be

Interaction
The nothing gone
Revulsion

I got a little bit of rage
Set aside for a special moment
Not long till I find a way
To attain our blood commitment
Never thought it would be so easy
But I'm still gona take my time
Who says I need a motherfucking reason
All I need is cold percision

Destruction
For me it's fine
Reaction
Yeah
Destruction
For me it's fine
Reaction

Revolt the dreams are demons
To tear the world apart
Now that we have our reasons
Our holocaust will start
Your interfering complicates
It makes us laugh it makes us hate
You will fall down
One day

Nay, I don't want it
To fade into obscurity
Liar, your commitment
You deplore what you can't tell
So it's all about covers
It's all about sucking dicks
If you're not about music

Why don't you sell some other shit?

Destruction
For me it's fine
Reaction

Revolt the dreams are demons
To tear the world apart
Now that we have our reasons
Our holocaust will start
Your interfering complicates
It makes us laugh it makes us hate
You will fall down
One day

No, we don't need you
No, we don't need you
Now
It's...fuck now
It's fucked
Now it's...fucked now

Fuck here i am now,
TTrapped in this hypocrisy
Shit, and believe that
Shit is all that will ever be

Destruction
The laughing gone
Reaction
Destruction
For me it's fine
Reaction

Yeah

Destruction
Destruction
Destruction
