It's not ending, what's it to you?
Isolate me, feel unsure
Tired of waiting, please, let me go
I'll never forget you, just let me go

My eyes see everything I want them to
I just don't want them to see you
Just the way that you are
It's so cold

Safely tortured, hiding the scars
No one knows it, just you and I
Lift your dress up, I said I'd go slow
I'll never stop this until I reload

My eyes see everything I want them to
I just don't want them to see you
Just the way that you are
It's so cold

Sometimes there's no control
Shut up till I'm done talking
You seem so insincere
It seems you got it all

You got it all
You got it all
You got it all
You got it all

My eyes see everything I want them to
I just don't want them to see you
Just the way that you are
It's so cold

You got it all
You got it all
You got it all
You got it all
