Before this starts  
I just want to tell you  
That you could fuck us

Love me, so I can relax  
So I can aim straight  
So I can do right for us

I know you're inside  
I know you're cold  
I know you're saddened by the loss of those

They really loved you  
And now you're cold  
I'm sorry that you're next, so go

Who's next? All right  
With the fucking bruised knees in the black shirt  
Screaming, all right  
In the bloody back seat of my black hearse

Hanging, all right  
On a fucking meat hook in my basement  
Who's next? All right  
It's everybody's time to die

My mind does this  
I can't stop the rage inside  
My hands again

Hate me, so I can relax  
So I can kill you  
So I can do right for us

No more pretending  
Were all alone  
I want to hear just why you left us all

We really loved you  
But now we're cold  
I'm sorry that you're next to go

Who's next? All right  
With the fucking bruised knees in the black shirt  
Screaming, all right  
In the bloody back seat of my black hearse

Hanging, all right  
On a fucking meat hook in my basement  
Who's next? All right  
It's everybody's time to die

Yeah, fuck, you'll die you fucking bitch

I, well, I can't deny  
Forensic lies  
Or hateful sighs

I, well, I can't deny  
Forensic lies  
Or hateful sighs

I'll wait for you  
I'll wait for you  
I'm glad you know

I cannot take this anymore  
You've pushed me to the limits  
You sold us this before

But I still know  
We'll find the right one to fight with us now  
And I know that you're set on us  
You're set on us, you're set on us
