Scratch the tears in for good  
Sadist  
Feels good  
Life can't hurt on tv  
Godspeed  
Lucky now  
When he grabs your hand  
Do you lick again  
But the taste has changed  
Flesh remains

See what you go through  
With bleeding eyes  
Got what you came for  
When hate is blind

Your told me not to lie

Anger persists to drown  
Love it  
Loathes you  
Say your knife just won't kill  
Try hard  
Want it now  
When the taste has changed  
Do you rest your face  
No eyes will close  
The hole grows

See what you go through  
With bleeding eyes  
Got what you came for  
When hate is blind

You told me not to lie

The start of new days  
Has nothing changed  
The sick knows no pain
