Since the beginning of time, girls just ain't got their  
guys  
They've been known to place the blame on that thing  
between our thighs  
They searched our hearts, looked in our eyes, gonna  
sneak past our souls  
But it ain't that hard girls, truth be told, it's all how we  
hold our pole

You can tell a lot about a man, by the way he holds his  
pole  
Does he hold it high, does he hold it low,  
Does he crank it fast or slow  
Girls you wanna know your man, hey I understand  
Just head down to a fishing hole  
Cause you can tell a lot about a man by the way he  
holds his pole

Billy joe yea he's been know to hold his all is life  
And tractor ty's the kind of guy to hide his from his wife  
And I caught brian peekin' at mine on day when we  
trolled  
As I was reelin' he gotten the feelin' that he wanted to  
hold my pole

(Chorus)

Yea you know if it's cold outside I ain't gonna be out  
there holdin' mine  
My ole' rod may be past it's prime but my baby says it  
works just fine

(Chorus x2)
