I don't wanna wait to love you, I just wanna give you my
all

And my hands are shaking

Yes my hands are shaking

(Hands are shaking) x2

(Shaking) x5

And my hands are shaking

The way you get me going it stops and makes me have
to think

I wonder if I could have the chance to have you sitting
next to me

I feel like being close, get my feelings shown

If you need like I need, then we need to go

It's the time to make the move, get to know me as I get
to know 'cause

I don't wanna wait to love you, I just wanna give you my
all

And my hands are shaking (x2)

(Hands are shaking) x2

(Shaking) x3

And my hands are shaking.

(My all) Tell me what I have to do to make you mine

(My all) Just leave the rest to me, I'll do just what you
like

(My all) I'll keep giving my all (x2)

I'll keep giving my...(x2)

I'll keep giving my all (x2)

I'll keep giving my...(x2)

I don't wanna wait to love you (x2)

I just wanna give you my all

I'll keep giving my all (x3)
