Break it apart, just tear it down
Our world is lost, no solid ground
I gave you a chance, now I'm empty
You strangle my life, nothing left of me

You... You're always choosing sides
But, I'm just choosing you...
Uncrying tears I've cried...

And now I'm drawing a blank
Nothing that you say
And nothing that you do
Makes... any sense... any sense to me
Wait...
'Cause I thought that I knew
What I wanted From you

But now I'm drawing a blank

Change all the facts
Zero me out
Buried in your wreckage, falling down
If I had a chance to understand
How to get through build it up again

You... You're always choosing sides
Now the side I choosing you
Uncrying tears I've cried

And now I'm drawing a blank
Nothing that you say
And nothing that you do
Makes... any sense... any sense to me
Wait...
'Cause I thought that I knew
What I wanted from you

What would keep you warm at night
What would change your dark to light
Take what's broken make it right
Make me believe that it's worth the fight

And now I'm drawing a blank
Nothing that you say
And nothing that you do
Makes... any sense... any sense to me
Wait...
'Cause I thought that I knew
What I wanted From you
What are you trying to prove

'Cause now I'm drawing a blank
