I'm wondering how we fell through  
Got a little too much in my head,  
Like I miss you  
Each passing light reminds me  
Nothing could lift me from the dark  
Till I found you

Every day goes running  
With the same flow  
But there's always something  
Washed away

I don't know how we fell through  
Got a little too much in my head,  
Like I miss you  
A million lights behind you  
I'm a little too much in the dark,  
Here without you

No one leaning on me  
Nothing here to hold me  
Moving where I choose, alone  
But rolling so free  
There's nothing here to stop me  
Filling up my head with me and you

I don't know how we fell through  
Got a little too much in my head,  
Like I miss you  
A million lights behind you  
I'm a little too much in the dark  
When I can't see you

No telling where the future flows  
But before it goes  
You and me you know we've got to try

Before the chance flies  
Honey this is our time  
Don't be one of those  
Sweet fools standing on the kerb  
Watching life pass by

Don't tell me how we fell through  
Got a little too much in my head,  
Like I miss you

A million lights behind you  
I'm a little too much in the dark  
Here without you

A million lights behind you  
I'm a little too lost in the dark  
till I find you
