Symptoms of being scared
Feeling cold
Feeling lonely
On your own,
I can feel this fear,
Getting stronger,
And it's taking over,
I'm losing control,

And if you are not religious
Then how will you ever believe
And if I don't know procedures
Then how am I meant to proceed

To mend your heart
To mend your heart
To mend your heart
To mend your heart

I try my best to operate on you, you, you,
Trying to learn the mechanics of a heart,

Broken hearted, torn apart
What was left on the floor
Has been smashed into pieces,
First she hurt it, then she deserted
But I'm trying to save it
Before your heart ceases
And if you are not religious
Then how will you ever believe
And if I don't know procedures
Then how am I meant to proceed

To mend your heart
To mend your heart
To mend your heart
To mend your heart

I try my best to operate on you, you, you,
Trying to learn the mechanics of a heart
