S-O-S-E-R-I-U-Z this is an emergency  
Try your best to evacuate or prepare for the deep  
freeze  
Strong breeze blowin' trees down the streets black ice  
Picture what that look like yeah nigga that's my life  
Hangin' wit my brothers like icicles on gutters  
You know all we do is win though like curtains and  
shutters  
Chillaa's on the come up got these haters praying upon  
my downfall  
I'm way too cold for y'all should be praying on me to  
thaw  
Ha but that ain't gone happen god knows my flow has  
been permafrost  
I'm so blessed oh yes in my zone no press  
I thought you would've known that Chillaa is ice cold  
As a glass of H2O that's mixed with nitro bro
