Searching from sunrise to sunset  
For the one who feels alike  
And now I know my heart is set  
To finally see what it's like

Until I make it right  
You're not out of my sight

I know  
That I'll get to you someday  
Don't let go  
I'm just a miracle away

A true love beyond blinding  
A truth the heart can't ignore  
And still the signs keep reminding  
Of the dream that's worth fighting for

Passion is not a crime  
It's a matter of time  
Until I make it right  
Until I make it right

I know  
That I'll get to you someday  
Don't let go  
I'm just a miracle away

I know  
That I'll get to you someday  
Don't let go  
I'm just a miracle away

Oh - oh  
Oh - oh

I knew  
That I'd get to you someday  
We knew  
We'd find the miracle today
