"Run Me Down"

You gotta run me down, you gotta run me down
If you wants to contact me, you gotta run me down

I got work to do, I'm the busiest man in town
If you want to contact me, you gotta run me down

When I gets my dough, I'm kinda hard to find
If you want me to pay your bills, you gotta run me down

Now the rooster crows and the hens looked around
Said, if you want to make love, you gotta run me down

[Incomprehensible]

When I had my money you used to follow me around
Now I have got broke, you gotta run me down

You gotta run me down, you gotta run me down
If you want to contact me, you gotta run me down

[Incomprehensible] boy
Yeah
