Chemicals will hit you
Chemicals will knock you down
Is it over cause you
You feel no pain
Throwing me around
You attack my head
With numbers
You attack my room
With things of glass
You attack my neighbors
'Till you find someone
Who's cleaning up the mess
You are no good
You are no good
'Cause you can't sleep
'Till you know your overbearance
Makes me creep
You are no good
You are no good
'Cause you can't sleep
'Till you know your overbearance
Makes me creep
