"Where In The World"

Visit "[Where In The World](#)" on MotoLyrics.com

Where in this world could I go, but to the plane
Where in this world could I go, but to the speeding train
Where in this world could I go, but to the road
That takes me away

There's no escape from this circling place
No, no escape from this circling place
With all of us here on this circling place
There's no good night
It's not a good night

Where in this world could I go, but to the wires
Where in this world could I go, but to the speeding
wires
Where in this world could I go, but to the chord
That takes me away

There's no escape from this circling place
No, no escape from this circling place
With all of us here on this circling place
There's no good night
It's not a good night
