Fill my space, blossoms from hell.
My world is filthy, devil's kernel.
Fill my space with desire's dark
Strew my path with blossoms from hell
My world is filthy, my world is stark
Numbed soul of mine is devil's kernel.
Changing my world, into poisonous gloom.
Cursing divinity, pleading for doom.
Creepy seduction for my eyes is bliss
Ravenous thoughts, curving me hellish
Give me back my throne
I wanna rule necropolis!
Bloody execution for my soul is bliss
Sepulchral dreams curving me hellish
Reaping apart - I want my reign
I wanna shape necropolis
My world is filthy, my world is stark
Fill my space with desires dark
Creepy seduction for my eyes
Bloody execution for my soul
Strew my path with blossoms from hell
My world is filthy, my world is stark
Numbed soul of mine is devil's kernel
Fill my space, blossoms from hell.
My world is filthy, devil's kernel.
Bloody execution for my soul is bliss
Sepulchral dreams curving me hellish
Reaping apart - I want my reign
I wanna shape necropolis
