This is for the rockers getting groupie love, for us  
This is for the DJs making all them cuts, for us  
This is for the singers singing what they love  
This is for us, this is for us  
This is for the exotic girl on the pole, for us  
This is for the lyricist with flow, for us  
This is for the dancers losing control  
This is for us, this is, this is for us

Can you entertain us  
Are you gunna sit around and be in hiatus, no  
Fortified getter, puttin on that game face  
Stepping on stage like you're already famous  
Circuit Assassin digital killer  
Murdering beats a miracle thriller  
Back on the plate a home run hitter  
This is for my people for the winners

(Can't get enough...)

This is for

This is for the rockers getting groupie love, for us  
This is for the DJs making all them cuts, for us  
This is for the singers singing what they love  
This is for us, this is for us  
This is for the exotic girl on the pole, for us  
This is for the lyricist with flow, for us  
This is for the dancers losing control  
This is for us, this is, this is for us

You don't tell me how to live I got my own agenda  
You don't tell me how to move it cause I move it better  
And when you see me on next level on top with my  
people rock, rock, rock, rockin' it  
Far and wide, LA on my side  
Circuit Assassin, I'm killin mics  
This is for the rise, this is for the tide  
For artists who get down

(This for my people, this is for my people, can't get  
enough...)

This is for

This is for the rockers getting groupie love, for us  
This is for the DJs making all them cuts, for us  
This is for the singers singing what they love  
This is for us, this is for us  
This is for the exotic girl on the pole, for us  
This is for the lyricist with flow, for us  
This is for the dancers losing control  
This is for us, this is, this is for us

Ok, now me, I do this 24-7 flying like 9-11  
Do this, for the girl on the pole trying to buy her books  
make her way to the honor roll  
For the rappers not about fashion doin no braggin  
Fueled by the passion, love for the music and full of  
soul  
Never into music for the fame  
So many people in the picture do not fit my frame  
God, ain't a hatin bone in me cause I left it for the  
lames  
I go by the name of Eight East so don't forget the name  
And this is for

This is for the rockers getting groupie love, for us  
This is for the DJs making all them cuts, for us  
This is for the singers singing what they love  
This is for us, this is for us  
This is for the exotic girl on the pole, for us  
This is for the lyricist with flow, for us  
This is for the dancers losing control  
This is for us, this is, this is for us
