Your pretty face is just a fucking fake
Every little boy always dance around you
They just give a whistle then you jump in the car
Innocently ask now what the fuck? YES FUCK!

You can't escape from the ring of men (hey)
Your body is used like a hotel room's key (hahahaha)
You catch more dick than arms catch handles
Sorry I'm not a motherfucking gentle

Now I know I should trust no one
What I have believed in is already gone
Now I know, now I know
Now I know I should trust no one
Everything, everything
Everything I have believed in is already gone

Use my words to build your future
Lose your history
Burn the diary
Forget Eddie, Larry, Terry
Be a nice, dear, lovely fairy

Look at that, there's a whore again
She left her glory at home again
Don't worry girl the hunters are here
They gonna hunt you, you wont be clear

Now I know I should trust no one
What I have believed in is already gone
Now I know, now I know
Now I know I should trust no one
Everything, everything
Everything I have believed in is already gone

I have an advice for you: change
If you remain like this, you will fail
This is WHO you are
Yes I judge you, I lost my faith

Welcome to Hell

This is your road to hell
I won't bring you to my castle
I won't help you to find the exit
From the labyrinth what doesn't exist

Now I know I should trust no one
Everything I had is already gone

Now I know I should trust no one
What I have believed in is already gone
Now I know, now I know
Now I know I should trust no one
Everything, everything
Everything I have believed in is already gone
