When I see your smile  
I'm losing your eyes forever  
And my heart in your hands  
We will always be happy together

When I see your... face looking through my eyes  
I needed time I never new  
Listening to my voice  
Looking through my eyes

You never once realized  
Never realized again

When I see your smile  
I'm losing your eyes forever  
And my heart in your hands  
We will always be happy together (x2)

And my heart in your hands  
We will always be happy together  
Yesterday, you broke me  
You called me a fucking liar

And my heart in your hands  
We will all be happy forever  
I'm sorry, I told you  
I couldn't be a perfect liar

And I'd never give my heart to you  
I'd never give my heart to you

Look at me  
I am the cure cause you are all the poison  
Just look at me  
I am the cure cause you are all the poison  
Look at me  
I am the cure cause you are all the poison  
Just look at me  
I am the cure cause you are all the poison

You are the poison I am the cure

You are the poison I am the cure  
You! You!

Please drink the posion  
What I made today, what I made today  
Don't turn around  
'Cause I'm far away, I'm far away

And I'd never give my heart to you  
I'd never give my heart to you (x2)

Look at me  
I am the cure cause you are all the poison  
Just look at me  
I am the cure cause you are all the poison  
Look at me  
I am the cure cause you are all the poison  
Just look at me  
I am the cure cause you are all the poison

Look at me  
I am the cure cause you are all the poison  
Just look at me  
I am the cure cause you are all the poison
