I should have known that you'd know
How to break a heart
You showed signs from the very start.
And now without you I'm on my own
I don't miss you at all.
I don't miss you at all

BRIDGE

I, All I can think of
Is how good it once was
And what could have been.

CHORUS

Holding, holding on to your dark side
It's the feeling that divides
When there's no love left.
And maybe one day I will make you see
Exactly what you did to me
But I won't hold my breath.

I should have known that you'd know
How to break a heart
So rehearsed when you played the part
It started so well
You showed yourself
Thank God I could tell in time.

BRIDGE

Don't tell me I'm the best
Then treat me like the rest.
You only want me when I'm walking.

CHORUS

Holding, holding on to your dark side
It's the feeling that divides
When there's no love left.
And maybe one day I will make you see
Exactly what you did to me
But I won't hold my breath.

MIDDLE 8

I gave it my all and now I give up

I throw in the towel cuz I've had enough
I'm no longer on your side
Because to you it's just a game
To give your love and take it away
When did you lose your mind?
(you've lost your mind)

CHORUS

Holding, holding on to your dark side
It's the feeling that divides
When there's no love left.
And maybe one day I will make you see
Exactly what you did to me
But I won't hold my breath.

Holding, holding on to your dark side
It's the feeling that divides
When there's no love left.
And maybe one day I will make you see.
