

## Clara Bond "Superman"

Visit "[Superman](#)" on [MotoLyrics.com](http://MotoLyrics.com)

I can see it in your eyes  
You've been burned by love before.  
I let you draw the lines  
And you still seem unsure.

We grow up or we grow apart  
And that won't protect your heart.  
Your mask is wearing thin  
I think it's time you let me in.

### BRIDGE

I'll always be around  
I'd never let you down  
Oh, let me show you I can be destructible  
I know it's stupid that it's you  
That's making me feel like  
I am invincible

### CHORUS

Go and build your walls around me  
I will knock them down  
So you can't shut me out  
I won't leave you behind.  
Reach for my hand to hold  
I will break your fall  
You'll be worth it all  
Every time.

Your lessons were all learned  
In the hardest of ways.  
I know you've been hurt  
And I will ease the pain.

I've always known the truth  
You're far from bulletproof.  
Once knocked down, you stand  
Some kind of Superman.

### BRIDGE

I'll always be around  
I'd never let you down  
Let me show you how.

I know it's stupid that it's you  
That's making me feel like  
I am invincible

#### CHORUS

Go and build your walls around me  
I will knock them down  
So you cant shut me out  
I won't leave you behind.  
Reach for my hand to hold  
I will break your fall  
You'll be worth it all  
Every time.

#### MIDDLE 8

Take my hand, take my hand  
I won't ask you again.  
Don't be scared, don't be scared  
I'll be there in the end.  
Take my hand, take my hand  
I won't ask you again.  
Don't be scared, don't be scared  
I'll be there in the end.

#### CHORUS

Go and build your walls around me  
I will knock them down  
So you cant shut me out  
I won't leave you behind.  
Reach for my hand to hold  
I will break your fall  
You'll be worth it all  
Every time.

#### OUTRO

Take my hand, take my hand  
I wont ask you again.  
Don't be scared, don't be scared  
I'll be there in the end.  
Take my hand, take my hand  
I wont ask you again.  
Don't be scared, don't be scared  
I'll be there in the end.  
I'll be there in the end.  
I'll be there in the end.
