Body and mind are begging me to die  
My heart is racing sleeping with an open eye  
My words aren't coming out  
I feel like someone else  
I'm only talking to you to amuse myself

Inbetween cloudy dreams  
Intensity, building up  
In and out, constant doubt  
Who am I this time?

I wanna hide from taking sides  
No matter what I'm criticized  
Cuz I'm dead to the world  
Turning cold without a fight  
Back to life

I'm guided back to the smell of the fear  
The wounds bleed black  
Something whispers in my ear  
"Choke"-these tiny voices  
They broke my stream of choices  
They joke-"Never say never"  
And I'm falling for it more than ever

Lead the way, I give in  
No one wins, pressure's rising so fast  
I can't live my life in this wasteland  
(I won't last)

I want to hide from taking sides  
No matter what I'm criticized  
Cuz I'm dead to the world  
Turning cold without a fight  
Back to life

When nothing's right  
There's no exit signs tonight  
Cuz I'm dead to the world  
That turned it's back to mine  
Back to life

They pull me down  
Dead hands of the past  
Under the ground  
When we're livin' life fast  
I must find a way to break out  
Vices, unforgiving  
I must find a way to brea out  
This life's not for living  
Kill the past  
We won't last

I want to hide from taking sides  
No matter what I'm criticized  
Cuz I'm dead to the world  
Turning cold without a fight  
Back to life

When nothing's right  
There's no exit signs tonight  
Cuz I'm dead to the world  
That turned it's back to mine  
Back to life
