Running through the forest hand in hand  
Jumping over streams talking bout our dreams  
We laugh we smile we dance  
Would you give it one more chance  
Please don't let me leave this place  
I really really don't want to wake up

Cause then I'll have to face  
All the thoughts that race  
How it all ended up the same  
Without you here in my arms

Keep holding on  
Keep holding on

Remember how we laughed  
Our hearts beating fast  
It was like a scene straight from tv  
We sped away from the cops on our feet

To find a spot on a hill  
That overlooked the city  
Still with you here in my arms

Keep holding on  
Keep holding on

Don't forget the pictures in our minds  
On the floor at the station  
We could care less what people thought  
The only two in a sea of blur  
At the turning of a year  
With you here in my arms

Pizza and pasta with the band playing sinatra  
Nothing else can ever compete  
Like a two-piece puzzle  
They don't even come close  
With you here in my arms

We traveled the world  
Pampas from brazil and brats from belgium

There's so many more places to discover  
I wouldn't want to do it with another

Don't forget the journeys  
In the snow solving mysteries  
And in the desert full of camels  
As I finish this song  
I have one request  
That you be in my arms
