Burn the disaster of me
Burn the man I used to be
Burn all the letters I wrote
Burn every word that I choke
Find your space in the universe
Find your space in the universe
Don't follow the river
Â
Like the rain that feeds the earth
Like the snow above the dirt
Comfort me, comfort me,
You to me like a symphony
And in between my soft and bitter tears I beg you
please:
Comfort me
Â
Burn the disaster of me
Burn the man I used to be
Burn all the letters I wrote
Burn every word that I choke
Burn every seal, burn every weed
My Mississippi dream!
Off the swamp we get out clean
Synthesis of sweet,
My Mississippi dream
