

504 Boyz "Tell Me"

Visit "[Tell Me](#)" on MotoLyrics.com

504 I solemnly swear that I'll snitch
Or testify on any of my homies
That's the code to the streets, ya heard me
What's up Krazy, we in here
The new no limit code to the streets baby

Could you tell me where my niggas at
In the pen or the grave I'd never figure that
Could you tell me Lord what triggered that
I guess these project bricks got a nigga trapped

As I inhale the weed, tears dropping as I leave the
cemetery
My nigga's in the ground now, damn this life is scary
Try to hold in my pain, I drink till I'm buried
This Hennessey got me gone, my eyes are blurry

Face to face with reality, my dog is gone
For them bitch niggas that did it, I finger fuck my
chrome
And my dogs in the Penn, doing fifty to life
I'm a soldier till I die, mutherfuck 3 strikes

I remember balling with my niggas for fun
If I bust then you bust, I gave you my gun
Telly, dog you know I miss you, I still got love
Just to be the man you was, I'd probably drink your
blood

Could you tell me where my niggas at
In the pen or the grave I'd never figure that
Could you tell me Lord what triggered that
I guess these project bricks got a nigga trapped

Could you tell me where my niggas at
In the pen or the grave I'd never figure that
Could you tell me Lord what triggered that
I guess these project bricks got a nigga trapped

Kevin Miller you gone but you always missed
C and Mac locked up but we still a click
Received letters from the Penn, homies feel my pain

25 caught ten, man it's just a game

When DEA and the persecutors know my lawyer
See our skin tone is black, so our time is borrowed
I'm in a cell with three killas, so unleash the beast
And the judge send a word about cop a plea

They say we angry cause we can't breathe, uneducated
Facing life so it's strike three, independent
Slanging records call us coke dealers
C-Murder innocent trapped and we gonna fight
It so the world gonna feel us

Could you tell me where my niggas at
In the pen or the grave I'd never figure that
Could you tell me Lord what triggered that
I guess these project bricks got a nigga trapped

Could you tell me where my niggas at
In the pen or the grave I'd never figure that
Could you tell me Lord what triggered that
I guess these project bricks got a nigga trapped

Lord please accept my nigga mail
Did my homie sell his soul to get out of jail
I heard my nigga Mac finally gonna make bail
We bouncing hot boy, thugging trying to make mail
The drought is hell

For my dogs still slang for livings
Thank God Black Jesus is forgiven
I try to tell my little homies, ain't no love on the streets
But my niggas don't hear shit, when it's time to eat

And these soldiers, will bust your head if you slipping
I feel like my dog P, nigga I ain't tripping
A dope fiend at 14, look what the game done did him
I can hear his mama scream as the chopper hit him

Could you tell me where my niggas at
In the pen or the grave I'd never figure that
Could you tell me Lord what triggered that
I guess these project bricks got a nigga trapped

Could you tell me where my niggas at
In the pen or the grave I'd never figure that
Could you tell me Lord what triggered that
I guess these project bricks got a nigga trapped
