

Coasta "Young Blood"

Visit "[Young Blood](#)" on MotoLyrics.com

shake shake wont you come and dance with me
wild and free now we're on the street
young blood come around to make your name
shoot for the kill and kill for the fame
hey hey they got you on a little roll
flying by you're running through the tolls
short trip now the top is blowing off
long fall once yourself's been lost

just say what you mean to say

bright lights shining on the other side
blind yourself just to live the life
youngblood show them what they want to see
now I'm you and you're me
