Fresh off the flight with my brand new shoes on
They are not even out yet, let me introduce them
I do my two step, here right in front of you
Meet me at the door, it's kinda crazy 'cause I'm popular

Holla at the DJ and tell him turn it up
Holla at the DJ and tell him turn it up

You see me turn it up
And make it super size
We're about to burn it up
Just call me firefly

So what?, so what?
Talk about it
You want, you want
Yeah, they wanna know about it
They want, they want
They wanna see about it
They wanna stand around the club all night and think about it

Amplify the recipe
Every time you look at me
I love it when I hear the sound
Turn the music up for me
DJ, are you listening
Let the beat drown us out

Holla at the DJ and tell him turn it up
Holla at the DJ and tell him turn it up
Holla at the DJ and tell him turn it up
Holla at the DJ and tell him turn it up

Land in my spaceship, we didn't come to play
Take over your area, we do this everyday
Call yourself a Martian, well I'm from Jupiter
Spin around you so fast, you can never catch me up

'Cause I like when the beat drops
Play that record for me
Clap my hands, make me dance
Rocking on the floor
