Breathe it in, can you feel it in your soul?
Under your skin, just let it take control

Tonight is gona be our night
The beating rythm, feel the energy inside
I know your body wants to explode
Your feet just wana go
We're gona feel alive
There's something in the air, yeah!
Yeah we're gona have a good time
There's something in the air, yeah!
Yeah we're gona have a good time
Whoa oh whoa oh, whoa oh whoa oh
Whoa oh whoa oh, whoa oh whoa oh

It's all around
Go on let your mind escape
So free it out
There's nothing in our way

Tonight is gona be our night
The beating rythm, feel the energy inside
I know your body wants to explode
Your feet just wana go
We're gona feel alive
There's something in the air, yeah!
Yeah we're gona have a good time x4
Whoa oh whoa oh x4
Can you feel it? x4
There's something in the air, yeah!
Yeah we're gona have a good time x4
Whoa oh whoa oh x4
