Julian:

Round one I couldn't believe it, you came and  
knocked me out,  
with those killer eyes  
You stopped my heart from beating without saying a  
word  
Took me by surprise

Will:

You're like a rush to my head, I'm out of breath  
I can't keep up this time  
You're always one step ahead, leave me for dead  
Girl you're the best and that's why

All:

You make me want to stand down tonight, turn off the  
lights, give up the fight, I surrender, you got me good,  
I knew that you would, did the best that I could, but girl  
you move like a butterfly, butterfly then you sting like a  
bee, I tried to be bulletproof, you got to me

Gonna stand down tonight, turn off the lights, give up  
the fight, i surrender

Trent:

Round two, think I'm only dreaming  
This just can't be for real  
You're right here with me  
I just don't wanna wait ~ dont take me from this  
place to where I wanna be

Will:

You're like a rush to my head, I'm out of breath  
I can't keep up this time  
You're always one step ahead, leave me for dead  
Girl you're the best that's why

All:

You make me want to stand down tonight, turn off the  
lights, give up the fight, i surrender, you got me good,  
I knew that you would, did the best that I could, but girl  
you move like a butterfly, butterfly then you sting like a

bee, I tried to be bulletproof, you got to me

Gonna stand down tonight, turn off the lights, give up  
the fight, I surrender

Will: (RAP)

Yeah, TC.

Ding ding like the bell ring, throw the towel in  
She's one step ahead of anything I bring  
I mean I'm not afraid to admit to defeat  
She completes me, completely I'm free just to be  
who I am, so whenever im going down just believe in  
these  
dreams or reality, the reason I'm breathing  
I'm taken, so baby just take me, down with the love  
that im chasing

Jayden:

You make me want to stand down tonight, turn off the  
lights, give up the fight,

All:

I surrender, you got me good, I knew that you would,  
did the best that I could, but girl you move like a  
butterfly, butterfly then you sting like a bee, I tried to  
be bulletproof, you got to me.

Gonna stand down tonight, turn off the lights, give up  
the fight, I surrender
