I count my lovers in their rows
A lovely stroll through the catacombs
A darling coffin holds her pose
Pretty monster holding onto a rose

That's alright..
That's okay...

Let me see those fangs, baby
Let me see those dripping lips
Share eternal life, baby
C'mon grind those wicked hips

I count my lovers in their rows
A lovely stroll through the catacombs
She'll make you want to decompose
Pretty monster holding onto a rose

That's alright..
That's okay...

Let me see those fangs, baby
Let me see those dripping lips
Share eternal life, baby
C'mon grind those wicked hips

Love stained halloween
All souls hail the queen
Dead sweet valentine
Keeping me alive
Just to drain me... so drain me

Her starlit eyes are made of stone
Her vicious tongue will drill to the bone
She'll make you want to decompose
Pretty monster holding onto a rose
