(Verse)

Take away the melodies
Take away the songs I sing
Take away all the light
And all the songs you let me write
As the man I am today
Say the words you need to say

(Chorus)

Let them see You in me
Let them hear You when I speak
Let them feel You when I sing
Let them see You, let them see You in me

(Verse)

All my thoughts are gray
Another smile, another face
Another breath, a cradle sinned
Passing quickly through your head
I give my life for offering
Take it all, take everything

(Chorus)

Let them see You in me
Let them hear You when I speak
Let them feel You when I sing
Let them see You, let them see You in me

(Bridge)

With every breath I breathe
Sing a simple melody
But I pray they hear more than a song
In me, in me

(Chorus) x2

Let them see You in me
Let them hear You when I speak
Let them feel You when I sing
Let them see You, let them see You in me
