"Got You On My Mind"

Come my love take my frozen hand
And me head in your arms
High so high I must climb
My soul flew ahead

I'll never know if I don't go
And see what's on the other side
I'll never stop thinking of you
I've got you on my mind

Touch my hair like a spider
Make me forget what I am
Touch my skin with your breasts
They don't know me at all like you do

I'll never know if I don't go
And see what's on the other side
I'll never stop thinking of you
I've got you on my mind

I'm fading out
