"Tired Of Life"

Visit "[Tired Of Life](#)" on MotoLyrics.com

I started drinking despite myself
I'm tired of doing things for everyone else
Why can't I just learn to just say no
Turn my check and turn to go

[Chorus]

Do you wanna say up all night long and talk to me
We could sit around this town and see what there is to
see

I started smoking despite myself
I'm tired of being there for everyone else
How can you just do this to me
Every time you go by

[Chorus]

Break
I'm tired of being tired of life
And everybody always picking on me
Everyone that should be helping me get up
I'm getting tired, I'm giving up

So your boyfriend blew you off again
And you come crawling back to me
It's so simple why can't you see that he
Would let you down again

[Chorus]

Break
I'm tired of being tired of life
People just use me to have a good time
I'm a loser in my own cool world, I got no friends and I
got no girls
But at least my mom thinks I'm cool
